Conservation Engagement DEVELOPMENT PATH

Engagement Activity

Activity without a clear model for P2 or engagement .

Strategic review

National stocktake, research and evaluation of current practice of engagement.

Building mandate

Building a consensus for change in response to financial challenge and emerging innovations

Double contribution

Powerful call to action

"If we were truly successful I think taxpayer funding of the protection of New Zealand biodiversity will be minimal."

GOAL

Capability building

Training of managers and key leaders in new model

Integration to organizational work

Design of engagement practices into the expectations of managers and services

Planning and reporting

Targets and goals for engagement performance planned and reported, regionally and nationally
